

Lab – 01: Practicing HTML

Create a web page in HTML. The web client requires an html page exactly like the one sample given below. Also draw the table asked.

Objective:

- Using HTML knowledge learnt so far.

Submission:

- Submission of your work must be on Moodle.
- **Emailed submissions will NOT be accepted.**
- **Plagiarized work will not be marked.**

Task 1 – Create an HTML file with the name “aboutMe.html” about yourself with following information.

- Describe yourself very briefly using maximum 3 lines, using the paragraph tag.
- Write your name as heading using **largest** heading tag, on top of the page. In **small** braces, write the meaning of your name.
- Add your picture, set width to 300px, under 'alt' attribute write your name. You may choose any reasonable picture from your PC or web URL (if you don't have yours).
- Make an ordered list and list at least three things that you stand for or what makes you passionate.
- Make an unordered list and list at least your 4 MAJOR skills that you believe you are very good at.
- Use two headings for 'Matriculation or O/Levels' or "Intermediate / A-Levels". Write the institute/school's name and **list** down major subjects you studied.
- Insert an image, when the user clicks on it, it redirects you to Google.
- Use another heading i.e. "My Favorite Websites". List at least 3 websites that you often visit. Each website name should be a link, when the link is clicked, it shall open that website in a **new tab**.

Task 2 – Create an HTML file named “table.html” and make the following HTML table exactly as shown in the figure below.
